European Society for Gynaecological Endoscopy

Don't turn
your back
on endoscopic
surgery

**15TH ANNUAL
CONGRESS
OF THE EUROPEAN
SOCIETY FOR
GYNAECOLOGICAL
ENDOSCOPY**

**5TH, 6TH, 7TH OCTOBER 2006
STRASBOURG - FRANCE**

CONGRESS PRESIDENT → **A. WATTIEZ MD**
ESGE PRESIDENT → **J. DEQUESNE**

CONTENTS

FREE COMMUNICATIONS

TOPIC 1: ENDOMETRIOSIS

FC-01

Indications for bowel resections in patients with rectovaginal endometriosis

N. Ochsenbein-Imhof, B. Gloor, E. Dreher, MD Mueller
University hospital, Berne, Switzerland

FC-02

A randomised controlled trial to assess the efficacy of laparoscopic uterosacral nerve ablation (LUNA) in the Treatment of Chronic Pelvic Pain

JP Daniels, R Gray, RK Hills, KS Khan
University of Birmingham, Birmingham, United Kingdom

FC-03

Combined recto-vaginal imaging evaluation of the rectosigmoid junction with water-contrast in the rectum: a new ultrasonographic approach in the preoperative assessment of intestinal endometriosis.

V Bergamini, S Scarperi, G Carbognin, S Uccella,
S Tomera, G Bellini
University of Verona, Verona, Italy

FC-04

A comparative study of fertility outcomes in two surgical groups; laparoscopic colorectal resection vs. discoid/ superficial excision for intestinal endometriosis

Eric Ohana¹, N Waters¹, J Leroy³, A Wattiez⁴
¹Haute-pierre University Hospital, Strasbourg, France, ²CMCO SIHCUS University Hospital, Strasbourg, France, ³Department of General Surgery A, University Louis Pasteur, hôpitaux, Strasbourg, France, ⁴I.R.C.A.D/E.I.T.S, Strasbourg, France

FC-05

Laparoscopic excision of posterior vaginal fornix in the treatment of patients with deep endometriosis without rectum involvement. Surgical treatment and long-term follow-up

S Angioni, M Peiretti, R Contu, F Milano, V Mais, GB Melis
Division of Gynecology, Obstetrics and Pathophysiology of Human Reproduction, Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

FC-06

The response to radical laparoscopic excision in the treatment of chronic pelvic pain

S Banerjee¹, K Ballard², D Lovell², J Wright¹
¹Ashford & St Peter's NHS Trust, Chertsey, Surrey, United Kingdom, ²PGMS, University of Surrey, Guildford, Surrey, United Kingdom

FC-07

Laparoscopic in-block resection of deep infiltrating endometriosis vs. Incomplete surgical treatment with or without medical therapy. Long term follow up on pain control and quality of life

S Angioni, R Contu, F Milano, S Santeufemia, M Peiretti, V Mais, GB Melis
Division of Gynecology, Obstetrics and Pathophysiology of Human Reproduction, Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

FC-08

Symptomatic bladder infiltrating endometriosis. Diagnosis, laparoscopic treatment and follow up

R Contu, S Angioni, V Mais, GB Melis
Division of Gynecology, Obstetrics and Pathophysiology of Human Reproduction, Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

FC-09

Laparoscopic laser treatment of Endometriosis-Associated pain

A.O. Bale, J.O. Amu, S.O. Amu, A.K. Adegbenro
The Royal Oldham Hospital, Manchester, Lancashire, United Kingdom

TOPIC 2: HYSTERECTOMY

FC-10

Objective Structured Assessment of Technical Skills (OSATS) to evaluate the competence of gynecologists in learning a laparoscopic hysterectomy

J.M Briët, M.J.E Mourits, G.H de Bock, H.J.G Arts
University Medical Center Groningen, Groningen, Netherlands

FC-11

Laparoscopic subtotal hysterectomy: outcome of 400 consecutive cases

J Erian, S Chandakas, N Hill
Princess Royal University Hospital, Orpington/Kent, United Kingdom

FC-12**The third hand of the laparoscopic surgeon**L. Mettler

Dept. of OB/GYN, University Hospitals Schleswig-Holstein, Campus Kiel, Kiel, Schleswig-Holstein, Germany

FC-13**Is the feasibility and safety of laparoscopic hysterectomy influenced by uterus weight?**S Uccella¹, F Ghezzi¹, A Cromi¹, S Tomera¹, G Siesto¹, V Bergamini², Pf Bolis¹¹University of Insubria, Varese, Italy, ²University of Verona, Verona, Italy**FC-14****Immediate urethral foley removal after hysterectomy: differences between laparoscopic and vaginal approach**S Uccella¹, F Ghezzi¹, A Cromi¹, P Beretta¹, G Colombo¹, V Bergamini², PF Bolis¹¹University of Insubria, Varese, Italy, ²University of Verona, Verona, Italy**FC-15****An efficient and safe procedure of laparoscopic supracervical hysterectomy with endocervical resection**J.-M. Wenger¹, J.-B. Dubuisson¹, B. Roche²¹Gynecology service university hospital, Geneva, Switzerland, ²Proctology service, Geneva, Switzerland**FC-16****Total laparoscopic hysterectomy as the method of choice for hysterectomy in female-to-male Gender Dysphoric patients**S. Wevers, S. Monstrey, J. Gerris, M. Dhont

Womens Clinic, Ghent University Hospital, Ghent, Belgium

FC-17**Outcomes after total versus subtotal laparoscopic hysterectomy**P. Litta, C. Esposito, S. Fantinato, M. Bonora, A. Gritti, A. Ambrosini

Department of gynaecological sciences and human reproduction, Padua, Italy

FC-18**The “big five”: a comparative cost analysis between five hysterectomy techniques**F Lubbe

Lubbe, Johannesburg, South Africa

TOPIC 3: ONCOLOGY**FC-19****Comparison of laparoscopic-assisted vaginal hysterectomy and pelvic and/or paraortic lymphadenectomy with traditional laparotomy in patients with stage I and II endometrial cancer**Y Karaman, MZ Gunenc, B Bingol

Istanbul Bilim University Metropolitan Florence Nightingale Hospital, Istanbul, Turkey

FC-20**Post-operative peritoneal dissemination after laparotomy and CO₂ pneumoperitoneum: a syngenic mouse model with and without controlled respiratory support**S Matsuzaki, N Bourdel, JE Bazin, JL Pouly, G Mage, M Canis

Centre d'Endoscopie et des Nouvelles Techniques Interventionnelles, Université d'Auvergne - Clermont I, Clermont-Ferrand, France

FC-21**Laparoscopic Radical Hysterectomy for Early Uterine Cervix Carcinoma: 2-Years Experience**G. Gorchev, S. Tomov

Clinic of Gynecology, Center of Oncology, Medical University, Pleven, Bulgaria

FC-22**Nerve sparing laparoscopic radical hysterectomy in patients with invasive cervical cancer. Evolution of our technique.**J. Gilabert-Estelles, J Gilabert-Aguilar, V Paya, V Diago, J.J. Rodenas

Hospital Arnau de Vilanova, Valencia, Spain

FC-23**Survival study of our experience in 3 surgical approaches for endometrium cancer.**E. Martínez Gómez¹, A. Zapico Goñi², P. Fuentes Castro², F. Arnanz Velasco², P. Juez Martel²¹H.U.Guadalajara. Universidad de Alcalá., Guadalajara, Spain, ²H.U.Príncipe de Asturia. Universidad de Alcalá., Alcalá de Henares. Madrid., Spain**FC-24****Endoscopically assisted techniques in the field of oncoplastic surgery with Latissimus-dorsi-flap**B. Kraemer¹, C. Roehm¹, S. Buschle², D. Wallwiener¹, J. Hoffmann¹¹Department of Obstetrics and Gynaecology, University of Tuebingen, Germany (Director: Prof D. Wallwiener)²Karl Storz, GmbH & Co, Germany

FC-25**Laparoscopic surgery of early-stage endometrial cancer - 5 years of experience**

A. Langebrekke, K. Sachse, E. Qvigstad, O. Istre, M. Onsrud
Ullevål University Hospital, Oslo, Norway

FC-26**Laparoscopic lymphadenectomy plus Schauta-Amreich versus Laparoscopic-assisted radical vaginal hysterectomy for cervical cancer**

A Zapico¹, P Fuentes¹, F Aranz¹, A Lopez Yagüe¹, A Ruiz²

¹Obstetrics and Gynaecology Department Principe de Asturias Hospital. School of Medicine Alcalá University, Madrid, Spain, ²Pathology Department Principe de Asturias Hospital. School of Medicine Alcalá University, Madrid, Spain

FC-27**Different modes of administration of Hexyl 5-aminolevulinate for laparoscopic fluorescence diagnosis of metastatic ovarian cancer in a rat model**

E. Jouve¹, P. Collinet¹, M.O. Farine², S. Mordon³

¹Department of Gynaecology and Ostetrics, Lille University Hospital, Lille, France, ²Departement of Anatomic-pathology, Lille University Hospital, Lille, France, ³INSERM(French National Institute of Health and Medical Research) IFR 114, Lille University Hospital, Lille, France

FC-28**Laparoscopic hysterectomy in early stage endometrial cancer a multi centre, prospective, feasibility study**

J.M Briët, H.J.G Arts, G.H de Bock, M.J.E Mourits
University Medical Center Groningen, Groningen, Netherlands

TOPIC 4: HYSTEROSCOPY

FC-29**Diagnostic accuracy of Morphologic Hysteroscopy on Malignant Polyps**

M. Gorostidi, B. Rivero
Hospital Donostia, San Sebastian, Spain

FC-30**Randomised Controlled Trial Comparing Outpatient Versus Daycase Endometrial Polypectomy**

FA Marsh, LJ Rogerson, SR Duffy
St. James's University Hospital, Leeds, United Kingdom

FC-31**Sonohysterography with adjustable pressure of infusion - as the optimization method of preoperative assessment of myomas that penetrated myometrium in qualification for hysteroscopic myomectomy**

A Ludwin, I Ludwin, P Basta, A Basta
Chair of Obstetrics and Gynecology of Jagiellonian University, Krakow, Poland

FC-32**The Pipelle-H: "no touch" biopsy at "no touch" hysteroscopy. A randomized controlled trial**

N. Papadopoulos, G. Sobel, L. Chapman, P. Papalampros, D. Polyzos, P. Gambadauro, A. Magos
Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

FC-33**Outpatient treatment of uterine Synechiae at the time of hysteroscopy: feasibility and acceptability to patients.**

O Garbin, C Helmlinger, N Waters
SIHCUS-CMCO, SCHILTIGHEIM, France

FC-34**The outcome of hysteroscopic sterilisation (Essure®) in nulliparous women.**

MPH vleugels, S veersema
¹riverland hospital tiel, tiel, Netherlands, ²antonius hospital, nieuwegein, Netherlands

FC-35**Prevalence and clinical course of endometrial polyps in asymptomatic women**

M. Lieng, E. Qvigstad, O. Istre
Ullevål University Hospital, Oslo, Norway

FC-36**Office hysteroscopy in infertile women: the role of instrument diameter, the distension medium and surgeon experience on patient discomfort**

N. Pluchino, V. Cela, A.R. Genazzani
Department of Reproductive Medicine and Child Development, Division of Obstetrics and Gynecology, University of Pisa, Pisa, Italy

FC-37

Vaginoscopic versus conventional approaches to outpatient diagnostic hysteroscopy: a two-Center randomized prospective study.

O Garbin¹, R Kutnahorsky², JL Göelner², C Vayssière¹

¹SIHCUS-CMCO, SCHILTIGHEIM, France, ²Le PARC, COLMAR, France

TOPIC 5: HYSTEROSCOPY

FC-38

Bipolar resection in submucous leiomyoma: efficacy and long term results

M Brandão¹, P Ramôa¹, M Leal¹, MJ Areias¹, AR Pinto¹, F Osorio², F Faustino³, A Setúbal³

¹Maternidade Júlio Dinis, Porto, Portugal, ²Hospital Santa Maria, Lisboa, Portugal, ³Hospital da Luz, Lisboa, Portugal

FC-39

Efficacy of Thermachoice Endometrial Ablation for treatment of menorrhagia.

E.D. Dimitriou, L.M. Melson, I.K. Koutoukos, M.S. Siddig

West Dorset General Hospital, Dorchester, United Kingdom

FC-40

Resection of endometrial polyps in the outpatient department using the mini resectoscope.

P. Papalampros, P. Gambadauro, L. Chapman, D. Polyzos, N. Papadopoulos, A. Magos

Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

FC-41

Blind biopsies versus outpatient hysteroscopy in detecting benign intracavitary lesions with abnormal uterine bleeding

A Loddo, S Angioni, R Contu, F Milano, B Piras, GB Melis

Division of Gynecology, Obstetrics and Pathophysiology of Human Reproduction, Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

FC-42

Diagnosis and treatment of women with postmenopausal bleeding in an outpatient setting

A Timmermans¹, S Veersema², BW Mol³

¹UMC Utrecht, Utrecht, Netherlands, ²St. Antonius Hospital, Nieuwegein, Netherlands, ³AMC, Amsterdam, Netherlands

FC-43

Clinical Value of Serum Biochemical Inspection on Hysteroscopic Electrosurgery

EL Xia, XJ Gao

Hysteroscopic Center, Fuxing Hospital affiliate of Capital University of Medical Sciences, Beijing, China

FC-44

Role of outpatient hysteroscopy on management of post menopausal bleeding

S Yellamareddygar, N Aziz

Royal Oldham Hospital, Manchester, United Kingdom

FC-45

The results of endometrial ablation plus postoperative GnRH agonists in 65 patients with menometrorrhagia after one to 3 years of follow-up

M Vahdat, M Ashouri, E Sariri, B Zamannejad

Iran university of medical sciences, tehran, Iran

FC-46

The Essure™ Hysteroscopic Sterilisation: initial experience in Sheffield, UK.

M Vellayan, AJ Baxter, ME Connor, VA Brown

Jessop Wing, Royal Hallamshire hospital, Sheffield, United Kingdom

TOPIC 6: MISCELLANEOUS

FC-47

How difficult is to be trained in minimal access surgery in the UK?

C Panayotidis, K Abdo

Department of obstetrics and gynecology, Women's Health, Royal Preston Hospital, Lancashire university NHS Trust, Preston, United Kingdom

FC-48

Peritoneal tissue oxygen tension during a carbon dioxide pneumoperitoneum in a mouse laparoscopic model with controlled respiratory support

S Matsuzaki, N Bourdel, JE Bazin, JL Pouly, G Mage, M Canis

Centre d'Endoscopie et des Nouvelles Techniques Interventionnelles, Université d' Auvergne- Clermont I, Clermont-Ferrand, France

FC-49**Finland has not turned her back on laparoscopy**

P Härkki¹, J Jalkanen¹, J Fraser², A-M Heikkinen³, M Kauko⁴, J Mäkinen⁵, U Puustola⁶, E Tomás⁷, J Sjöberg¹

¹Helsinki University Central Hospital, Helsinki, Finland, ²North Carelian Central Hospital, Joensuu, Finland, ³Kuopio University Hospital, Kuopio, Finland, ⁴Hyvinkää Hospital, Hyvinkää, Finland, ⁵Turku University Central Hospital, Turku, Finland, ⁶Oulu University Hospital, Oulu, Finland, ⁷Tampere University Hospital, Tampere, Finland

FC-50**Laparoscopic accuracy of appendicopathy during laparoscopy in gynecological surgery**

F Milano, S Angioni, R Contu, C Basciu, V Mais, GB Melis
Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

FC-51**Simulating telementoring using NEST (network enhanced surgical training) in an endoscopic skills laboratory.**

P. Gambadauro, L. Chapman, A. Makris, P. Papalampros, D. Polyzos, N. Papadopoulos, A. Magos
Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

FC-52**Development of comprehensive laparoscopic and laparotomy mouse models with controlled respiratory support**

N Bourdel, S Matsuzaki, JE Bazin, JL Pouly, G Mage, M Canis
Centre d'Endoscopie et des Nouvelles Techniques Interventionnelles, Université d'Auvergne - Clermont I, Clermont-Ferrand, France

FC-53**Equipment malfunction: causes and consequences in endoscopic gynecological surgery**

S Courdier¹, O Garbin¹, M Hummel¹, V Thoma¹, A Wattiez²
¹Department of Gynecology Surgery, University Hospital of Strasbourg, SIHCUS-CMCO, Schilitigheim, France, ²Department of Gynecology Surgery, University Hospital of Strasbourg, Hospital of Hautepierre, Strasbourg, France

FC-54**Thermal Fusion - Understanding the role of key parameters**

C Wallwiener¹, M Wallwiener¹, M Menger², M Zubke¹, K.B. Isaacson³

¹University of Tuebingen, Tuebingen, Germany, ²University of Homburg, Homburg, Germany, ³Newton Wellesely Hospital, Boston, United States

FC-55**A 30 do-it-yourself laparoscopic training simulator**

A. Makris¹, P. Gambadauro¹, H. Abdel-Rahman², A. Magos¹

¹Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom, ²Obstetrics and Gynaecology Department, Hinchingsbrooke Hospital, Huntingdon, Cambridgeshire, United Kingdom

TOPIC 7: NEW MATERIALS**FC-56****Percutaneous Laparoscopically-Assisted and US-Guided Cryoablation of Uterine Fibroids**

Oi O Istre
Ob&Gyn, Oslo, Norway

FC-57**Randomised controlled trial comparing outpatient versus day-case Thermachoice III**

FA Marsh, J Thewlis, S Duffy
St. James's UNIVERSITY Hospital, Leeds, United Kingdom

FC-58**US guided Laparoscopically-Assisted Cryomyolysis. A multi center preliminary safety and efficacy results using Galil-Medical's 17-G Argon-Based Cryogenic Needles**

M Pansky¹, M Frank¹, D Schechter², B.D Cowan³, S.E Zimberg⁴
¹Asaf Harofe Medical Center, Zerifin, Israel, ²Galil Medical Inc., Yokneam, Israel, ³University of Mississippi Medical Center, Jackson, MS, United States, ⁴Cleveland Clinic Florida, Weston, FL, United States

FC-59**The OR-1-System: modern communication, documentation and system integration in the OR**

B. Schauf
Department of Obstetrics and Gynaecology, University of Tuebingen, Germany

FC-60**Do patients want to see their surgery? A new tool for patient education.**

N. Papadopoulos, P. Gambadauro, D. Polyzos, L. Chapman, P. Papalampros, A. Magos

Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

FC-61**Post operative evaluation of the Prolift® technique**

M Boukerrou, J Phalippou, Ph Debodinance, B Jacquetin, M Cosson
CHRU, Lille, France

FC-62**Is a reversible hysteroscopic method of sterilization the nirvana for women?**

L. Chapman, P. Papalampros, P. Gambadauro, D. Polyzos, N. Papadopoulos, A. Magos

Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

FC-63**Da Vinci robotic surgery in gynaecological oncology**

P Bartos, D Struppl

Operative gynaecology & Center for robotic surgery na homolce hospital, Prague, Czech Republic

FC-64**Virtual Reality Laparoscopic Simulator, Face Validity And Construct Validity For The Use In Gynaecology**

H.W.R. Schreuder¹, S.J. Roeleveld¹, K.W. van Dongen², I.A.M.J. Broeders²

¹University Medical Centre, Department of Gynaecology, Utrecht, Netherlands, ²University Medical Centre, Department of Surgery, Utrecht, Netherlands

TOPIC 8: UROGYNECOLOGY**FC-65****Laparoscopic Repair of vesicovaginal fistulae**

V Bergamini, G Bellini, S Scarperi, A Cromi, R Raffaelli, F Ghezzi
University of Verona, Verona, Italy

FC-66**Safety of inside-out transobturator approach for urinary stress incontinence treatment: Prospective multicentric study of 984 patients - French TVT-O® registry.**

PC Collinet¹, CC Ciofu², MC Cosson¹, PG Grise⁵, PC Costa⁵, BJ Jacquetin³, FH Haab², BD Deval⁴

¹Hôpital Jeanne de Flandre CHRU Lille, Lille, France, ²CHU Tenon, Paris, France, ³CHU Clermont Ferrand, Clermont Ferrand, France, ⁴CHU Nancy, Nancy, France, ⁵CHU Nîmes, Nîmes, France, ⁶CHU Rouen, Rouen, France

FC-67**New laparoscopic technique for cure of Cystocele and Stress Urinary Incontinence without mesh**

JB Dubuisson, Mj Dube, S Jacob, At Vlastos, M Ghahremani
Hôpitaux Universitaires de Genève, Genève, Switzerland

FC-68**Mid-term results following surgical treatment for female urinary incontinence with a sub-urethral tape by "in-out" transobturator route. Morbidity and assessment of a new ambulatory procedure in 79 patients.**

G. Bader, O. Poujade, S. Jaudi, B. Guyot, A. Fauconnier, Y. Ville
Poissy Hospital, Poissy, France

FC-69**Evaluation of vaginal vault and posterior wall prolapse repair by posterior polypropylene tape and rectovaginal porcine dermis mesh**

V Letouzey, C Courtieu

C.M.C Beausoleil, Montpellier, France

FC-70**Laparoscopic sacral colpopexy in the genital prolapse**

J Del Pozo, T Gomez

Centro Médico Teknon, Barcelona, Spain

FC-71**Laparoscopic management of pelvic organ prolapse by using "Gynemesh PS"**

Hyun J Lee¹, Yoon S Lee²

¹Daegu Fatima Hospital, Daegu, Korea, South, ²Kyungpook National University Hospital, Daegu, Korea, South

FC-72**Robotic surgery in urogenital prolapse repair**D. Struppl, P. Bartos

Operative Gynaecology & Center for Robotic Surgery Na Homolce Hospital, Prague, Czech Republic

FC-73**Different types of tension free vaginal tapes (tvt, tvt-o) in treatment of stress incontinence**V.I. Krasnopolsky, A.A. Popov, S.N. Buyanova, V.D. Petrova

Dp. Endoscopy Moscow Reg. Research Institute O/G, Moscow, Russia

TOPIC 9: REPRODUCTIVE SURGERY

FC-74**Transvaginal endoscopy and bipolar capsule drilling in PCOS patients**Sy Gordts, P Puttemans, M Valkenburg, R Campo, S Gordts

LIFE, Leuven, Belgium

FC-75**Laparoscopic retrieval of Autologous Ovarian Stem Cells to be cultured into Oocytes in patients with premature ovarian Failure**A. Vogler¹, I. Virant-Klun¹, H. Meden-Vrtovec¹, A. Bukovsky²¹University Dpt. of Obstetrics and Gynaecology, Ljubljana, Slovenia, ²University Dpt. of Obstetrics and Gynaecology, Knoxville, TN, United States**FC-76****The role of outpatient diagnostic hysteroscopy in assisted reproduction: a review of 1768 Cases**O Garbin, L Schindler, J Machu, N Waters

SIHCUS-CMCO, Schiltigheim, France

FC-77**Innovative barriers for peritoneal adhesion prevention - liquid or solid. A rat uterine horn model.**M. Wallwiener, S. Brucker¹, H. Hierlemann², C. Brochausen³,E. Solomayer¹, C. Wallwiener¹¹Department of Obstetrics and Gynaecology, University of Tuebingen, Germany²Centre of Excellence on Biomaterials and Organ Replacement Denkendorf, Germany³Department of Pathology, University of Tuebingen, Germany (Director: Prof B. Bültmann)⁴Institute of Pathology, Johannes Gutenberg University of Mainz, Germany**FC-78****Ovarian response to Gonadotrophin Stimulation in patients with previous endometriotic cystectomy**ME Coccia, F Rizzello, F Cammilli, L Ginocchini

Dept Gynaecology Perinatology and Human Reproduction, University of Florence, Florence, Italy, Italy

FC-79**Hysteroscopic section of the septate uterus using Bipolar Diathermy : anatomical and reproductive Outcomes**O Garbin, A Ziane, N Waters

Sihcus-Cmco, Schiltigheim, France

FC-80**Conservative vs. radical surgical treatment of ectopic pregnancy in women desiring further fertility**M. Ribic-Pucej, S. Dobrecovic

Department of Obstetric and Gynecology, University Medical Centre Ljubljana, Ljubljana, Slovenia, Ljubljana, Slovenia

FC-81**Pregnancy outcomes following treatment for symptomatic fibroids: laparoscopic uterine artery occlusion versus uterine embolization**Z. Holub, A. Jabor, L. Kliment

Baby Friendly Hospital, Kladno, Czech Republic

FC-82**Ovarian drilling: is it an optimal approach?**P Ramôa¹, M Leal¹, AR Pinto¹, M Brandão¹, R Garcia¹, S Sousa¹, L Sousa¹, F Faustino², A Setúbal²¹Maternidade Júlio Dinis, Porto, Portugal, ²Hospital da Luz, Lisboa, Portugal**FC-83****Fertility and pregnancy complications after hysteroscopic myoma resection**YP Vdovichenko, DS Ledin

National Medical Academy of Postgraduate Education, Kiev, Ukraine

FC-84**The role of diagnostic laparoscopy in current fertility diagnosis and treatment**

J. Bosteels, S. Weyers, B. VanHerendael, T. D'Hooghe

¹Imeldaziekenhuis, Bonheiden, Belgium, ²UZ, Gent, Belgium, ³ETCA, Antwerpen, Belgium, ⁴UZ, Leuven, Belgium

TOPIC 10: FIBROID

FC-85**Laparoscopic occlusion of uterine vessels compared to uterine fibroid embolization: clinical results of a randomized study**

K Hald, NE Kløw, E Qvigstad, O Istre

Ullevål University Hospital, Oslo, Norway

FC-86**Long-term results of laparoscopic radiofrequency thermal ablation of uterine fibroids**

V Bergamini¹, S Scarperi¹, G Bellini¹, G Cirelli¹, S Uccella², A Cromi², F Ghezzi²

¹University of Verona, Verona, Italy, ²University of Insubria, Varese, Italy

FC-87**Novasure Impedance Controlled System for Endometrial Ablation. Five-year follow-up on 107 patients.**

A Gallinat

Tagesklinik Altonaer Strasse, Hamburg, Germany

FC-88**Quality of life after five year follow-up of a RCT comparing novasure and thermochoice endometrial Ablation**

J.H. Kleijn¹, M.Y. Bongers², B.W.J. Mol³

¹Maxima Medisch Centrum, Veldhoven, Netherlands, ²Maxima Medisch Centrum, Veldhoven, Netherlands, ³Maxima Medisch Centrum, Veldhoven, Netherlands

FC-89**Laparoscopic myomectomy. Surgical anatomy based technique**

A Lena, G Vittori, R Delfini, FM Camilli, P Giovannini, PL Russo, R Zeloni

Ospedale San Carlo - IDI, Rome, Italy

FC-90**Reproductive outcome after laparoscopic myomectomy versus abdominal myomectomy**

H Huras, A Reron, M Trojnar-Podlesny, K Was

Department of Septic Obstetrics and Gynecology Jagiellonian University, Krakow, Poland

FC-91**The effect of triple tourniquets on intra-operative bleeding at laparoscopic myomectomy**

L. Chapman, P. Papalampros, P. Gambadauro, N. Papadopoulos, D. Polyzos, A. Magos

Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

FC-92**Surgical approach and case selection in Myomectomy**

NV Waters, V Thoma, A Wattiez

Institut de Recherche contre les Cancers de l'Appareil Digestif/ European Institute of Telesurgery, Strasbourg, France

FC-93**Preoperative ultrasound for uterine leiomyomas: is it trustworthy? A preliminary study**

C Battista¹, R Angioli¹, L Muzii¹, E Marullo¹, MI Sereni¹, E Cafà¹, E Vulcano¹, B Sadun¹, MA Vitali¹, C Terranova¹, P Benedetti Panici²

¹Università Campus Bio-Medico, Rome, Italy, ²Università La Sapienza, Rome, Italy

TOPIC 11: ENDOMETRIOSIS

FC-94**Limited segmental anterior rectal resection for the treatment of rectovaginal endometriosis: pain, quality of life and complications**

J English, N Kenney, S Edmonds, K Baig, A Miles, M Norbrook

Worthing Hospital, West Sussex, United Kingdom

FC-95**Segmental colorectal resection in laparoscopic treatment of endometriosis: preliminary results**

L Mereu, A Stepniewska, G Ruffo, F Barbieri, R Zaccoletti, S Landi, A Fiaccavento, P Pomini, L Minelli Sacro Cuore hospital, Negrar, Italy

FC-96

Laparoscopic treatment of Deep Endometriosis : evolution of surgical approach, complications and Long-term follow - up results of a series of 528 Patients.

S Tamburro, S Matzusaki, R Botchorisvili, K Jardon, B Rabischong, JL Pouly, G Mage, M Canis
Polyclinique Hotel-Dieu, University of Clermont Ferrand, Clermont Ferrand, France

FC-97

Pain, quality of life, and complications following ablation of superficial endometriosis using BICAP (ACME Medical)

J English, M Norbrook
Worthing Hospital, West Sussex, United Kingdom

FC-98

The role of proteinases and proteinase inhibitors in the evolution and clinical presentation of ovarian endometriosis

A Protopapas¹, S Milingos¹, S Markaki², D Loutradis¹, T Mitsis¹, P Drakakis¹, N Skartados¹, A Antsaklis¹
¹1st Department of Obstetrics & Gynecology, University of Athens, "Alexandra" Hospital, Athens, Greece, ²Pathology Department, "Alexandra" Hospital, Athens, Greece

FC-99

Cervical Endometriosis- A Case Series.

TK Madhuri, V Kaul, C Kremer, C MacDonald, G Hunter
The Midyorkshire Hospitals NHS Trust, West Yorkshire, United Kingdom

FC-100

The development of a qualitative indicator of pelvic pain (QuIPP) for identifying and classifying endometriosis related pain

KD Ballard¹, JT Wright², S Banerjee²
¹University of Surrey, Guildford, Surrey, United Kingdom, ²Ashford & St Peter's NHS Hospital Trust, Chertsey, Surrey, United Kingdom

FC-101

Over 1000 patients with early stage endometriosis treated with the Helica Thermal Coagulator (Helica): safety aspects

N C W Hill, S Chandakas, J Erian
Princess Royal University Hospital, Orpington Kent, United Kingdom

FC-102

Correlation between the levels of CA-125 and the severity and clinical presentation of endometriosis

A Protopapas¹, S Milingos¹, S Markaki², D Loutradis¹, T Mitsis¹, P Drakakis¹, N Skartados¹, A Antsaklis¹
¹1st Department of Obstetrics & Gynecology, University of Athens, "Alexandra" Hospital, Athens, Greece, ²Pathology Department, "Alexandra" Hospital, Athens, Greece

TOPIC 12: HYSTEROSCOPY**FC-103**

The importance of performing endometrial biopsy during hysteroscopic polyp resection to improve the early diagnosis of precancerous lesions

A Lena, R Zeloni, R Delfini, PL Russo, G Vittori, A De Ioris
Ospedale San Carlo - IDI, Rome, Italy

FC-104

Intra-uterine adhesions: the value of hysteroscopy validated by a clinical study

R Socolov, D Socolov, S Butureanu, C Flaiser
Department of Obstetrics and Gynecology, Iasi University of Medicine, Iasi, Romania

FC-105

Essure system TM: leader in personal satisfaction and tolerance of female sterilization. (Experience of 1700 women)

M Miño, JE Arjona, J Cordon, B Povedano, J Lorente, B Pelegrin
Reina Sofia University Hospital, Córdoba, Spain

FC-106

The diagnostic accuracy of endometrial thickness to exclude polyps in women with postmenopausal bleeding

A Timmermans¹, MBE Gerritse², B Opmeer³, FW Jansen⁴, S Veersema², BW Mol⁵
¹UMC Utrecht, Utrecht, Netherlands, ²St. Antonius Hospital, Nieuwegein, Netherlands, ³AMC, Amsterdam, Netherlands, ⁴LUMC, Leiden, Netherlands, ⁵Maxima Medisch Centrum, Veldhoven, Netherlands

FC-107

Results of IVF/ET before and after hysteroscopic resection of a small uterine septum

T Tomazevic, H Ban, I Virant KLun, M Ribic -Pucelj
University Clinical center Department of Obstetrics and Gynecology, Ljubljana, Slovenia

FC-108**Study on safety of transcervical resection of big intracavitary fibroidsanalysis of 70 cases**EL Xia, XM Tong

Hysteroscopic Center, Fuxing Hospital affiliate of Capital University of Medical Sciences, Beijing, China

FC-109**Feasibility Of Essure Placement in IUD Users**M. Mascaró, A. Úbeda, JM. Martorell, B. Castel¹Son Dureta Hospital, Palma (Balearic Island), Spain, ²Institut Universitari Dexeus, Barcelona, Spain**FC-110****Patient satisfaction among older women undergoing outpatient hysteroscopy for post menopausal bleeding**P-A Katsafourou, HM McMillan, JA Allen, K Phillips

Hull & East Yorkshire NHS Trust, Cottingham, East Yorkshire, United Kingdom

FC-111**Essure tubal sterilization associated with concomitant operative hysteroscopic procedure: technical specificities and outcome.**A Donnadieu, X Deffieux, A Gervaise, K Bonnet, R Frydman, H Fernandez

Hopital Antoine Bleclere, Clamart, France

TOPIC 13: STERILISATION & MISCELLANEOUS**FC-113****New Dutch protocol for the follow-up of Essure sterilization reduces the number of hysterosalpingographies**S Veersema¹, MPH Vleugels², H Brölmann³¹Sint Antonius Hospital, Nieuwegein, Netherlands, ²Rivierenland Hospital, Tiel, Netherlands, ³VU University Medical Center, Amsterdam, Netherlands**FC-114****The correct positioning of the micro - device Essure**F Mangino

Italy, Italy

FC-115**Modern concepts of IT systemintegration and systems of quality assurance within the perinatology including the fetal medicine**H. Abele

FC-122

Torsion of normal adnexa in post-pubertal women is associated with a significant recurrence rate: Possible role for preventive oophoropexy

M Pansky, N Smorgick, A Herman, D Schneider, R Halperin
Asaf Harofe Medical Center, Zerifin, Israel

TOPIC 14: MISCELLANEOUS

FC-123

Biomechanical properties and tissue tolerance study of synthetic mesh implanted in vivo

M Boukkerou, L Boulanger, C Rubod, E Lambaudie, P Dubois, M Cosson
CHRU, Lille, France

FC-124

Menses, fertility and obstetric outcomes after uterine artery embolisation for severe obstetrics haemorrhage

P Koutroumanis, H Dabasia, O Torie, R Williams
Royal Berkshire Hospital, Reading, United Kingdom

FC-125

The treatment of dysfunctional uterine bleeding (DUB) with the Minera IUS™ and HydroThermal Ablation (HTA): a comparative survival analysis.

KD Jones, E Ciantar, K Mukherjee, G Misra
Great Western Hospital, Swindon, United Kingdom

FC-126

The use of a proforma improves the documentation of diagnostic laparoscopies

I U Menninger, D J Rowlands
Arrowe Park Hospital, Upton, Wirral, Merseyside, United Kingdom

FC-127

Laparoscopic management of a cornual ectopic pregnancy

F Buxant, P Simon, D Bucella, V Anaf
gynaecology erasme hospital - ulb, brussels, Belgium

FC-128

SLN in cervical cancer: last step of the staging

P. George
CHU St. Pierre, Brussels, Belgium

FC-129

Fertiloscropy: review of a 1500 Continuous Case Series

A. Watrelot, M. Dreyfus
Lyon, France

FC-130

Laparoscopic repair of wide and deep uterine scar dehiscence following cesarean section

O. Donnez, P. Jadoul, J. Squifflet, J. Donnez
Universite Catholique de Louvain, Cliniques Universitaires Saint-Luc, Dept. of Gynecology, Brussels, Belgium

FC-131

Laparoscopic differential diagnosis of anomalies of the internal genital tract combined with vaginal aplasia

K. Rall,
Department of Obstetrics and Gynecology, University of Tuebingen, Germany

FC-132

New media approach in patient communication women's health

B. Böer, M. Wallwiener
Department of Obstetrics and Gynaecology, University of Tuebingen, Germany

VIDEO PRESENTATIONS

TOPIC 1: HYSTEROSCOPY

V-01

Office hysteroscopic sterilization using the Essure micro-insert device: an effective alternative for patients with increased operative risk

M.Martinho Lopes Martinho
Hospital S. João, Oporto, Portugal

V-02

Laparoscopic cervical cerclage for recurrent mid-trimester abortion

J T Wright
Ashford & St Peter's NHS Trust, Chertsey, Surrey, United Kingdom

V-03**Intraperitoneal Saline Infusion Sonography. A pilot study to investigate a new method of visualizing the Fallopian Tubes and Peritubal Adhesions.**

P.S.M. Bakker¹, H.A.M. Brölmann², A.R. Hoogendoorn², J.W. van der Slikke²

¹Medisch Spectrum Twente, Enschede, Netherlands, ²Vrije Universiteit Medisch Centrum, Amsterdam, Netherlands

V-04**Mini-hysteroscopy versus traditional hysteroscopy in infertility investigation**

R Clarizia, S Conforti, C Cadente Colucci, A Mollo, G Castaldo, C Del Tufo, C Romano, E Fiore, G De Placido

University of Naples "Federico II", Obstetric and Gynaecological Sciences Urologic and Reproductive Medicine, Naples, Italy., Naples, Italy

V-05**Hysteroscopic myomectomy by the combined use of cold non-electrical and electrical loops: beyond grading?**

FPG Leone, C Lanzani, C Marciante, E Ferrazzi

Dept Obst/Gyn, DSC L. Sacco, University of Milan, Milan, Italy

V-06**Rare cases of abnormal findings during transcervical embryoscopy**

M Paschopoulos¹, LG Lavasidis¹, EN Meridis², T Vrekoussis¹, F Grozou¹, A Vlachopoulou¹, N Dalkalitsis¹, E Paraskevaidis¹

¹Dept of OB/GYN, Medical School, University of Ioannina, Ioannina, Greece, ²Hammersmith Hospital, Imperial College, London, United Kingdom

TOPIC 2: HYSTERECTOMY**V-07****314 laparoscopic subtotal hysterectomies. Methods and results**

J Gronlund

Sygehus Vendsyssel, Hjørring, Denmark

V-08**Combined laparoscopic and vaginal hysterectomy of large uterus with uterine artery coagulation through retrograde umbilical artery tracking**

H. Roman, B. Resch, S. Blanc, L. Sentilhes, F. Sergent, L. Marpeau
Rouen University Hospital, Rouen, France

V-09**New method of laparoscopic subtotal hysterectomy**

Mamuka Mikadze

Privat Hospital "Beau Monde" Ltd., Kutaisi, Georgia

V-10**Day care laparoscopic hysterectomy**

R Modi

Akola Endoscopy Centre, Akola, Maharashtra, India

V-11**The Plymouth colpotomy tube for total laparoscopic hysterectomy**

J Frappell, P Scott, L Dupuch, M Zachariah

Derriford Hospital, Plymouth, United Kingdom

V-12**Skeletonisation of the Uterines in Lap Hysterectomy**

R Modi

Akola Endoscopy Centre, Akola, Maharashtra, India

V-13**Total Laparoscopic Hysterectomy Utilizing The "Lubbe-Levator"**

FJ LUBBE

Dr F J Lubbe, Johannesburg, South Africa

TOPIC 3: PELVIC FLOOR**V-14****Laparoscopic sacrovaginopexy vs. Prolift in treatment of genital prolapses**

A.A. Popov, T.N. Manannikova, G.G. Shaginyan, M.R. Ramazanov, A.A. Fedorov

Dp. Endoscopy Moscow Reserch Institute O/G, Moscow, Russia

V-15**The gold standard technique for laparoscopic lateral suspension for cure of genital prolapse with conservation of the uterus**

Jb Duibuisson, S Jacob, Jm Wenger, At Vlastos, M Ghahremani
Hôpitaux Universitaires de Genève, Genève, Switzerland

V-16

A “Retzius” View of The Various Midurethral Tape Insertion Techniques

F. Lubbe,

Lubbe, Johannesburg, South Africa

V-17

Inflammatory Pseudotumor of Urachus

F Osório¹, P Ramoa², F Faustino³, A Setúbal³

¹Hospital Santa Maria, Lisboa, Portugal, ²Maternidade Julio Dinis, Porto, Portugal, ³endoags, Lisboa, Portugal

V-18

The laparoscopic lateral suspension using a Mesh for Cure of POP is a safe technique

Jb Dubuisson, S Jacob, Jm Wenger, M Ghahremani

Hôpitaux Universitaires de Genève, Genève, Switzerland

V-19

Mesh plastic of rectocele

A.A. Popov, T.N. Manannikova, G.G. Shaginyan, M.R. Ramazanov, O.G. Kiryushkina, A.A. Fedorov

Dp. Endoscopy Moscow Reg. Research Institute O/G, Russia

TOPIC 4: ONCOLOGY

V-20

Total laparoscopic radical hysterectomy - a new approach in minimal invasive surgery without leaving oncologic aspect

F. Suwandinata, K. Muenstedt, H.R. Tinneberg

Department of Obstetrics and Gynecology of University Hospital Giessen, Giessen, Hessen, Germany

V-21

Anatomic description of the pelvic ureter. Modifications in pathological conditions.

J Gilabert-Estelles, J Gilabert-Aguilar, V Payá, V Diago, J.J. Rodenas

Hospital Arnau de Vilanova, Valencia, Spain

V-22

Ureteral tunnel management during radical hysterectomy for cervical cancer. A new variant technique

A Zapico, P Fuentes, F Arnanz, A López Yagüe, J Otazua, A Grassa
Príncipe de Asturias Hospital. School of Medecine. Alcalá University, Madrid, Spain

V-23

Temporary bilateral ovarian suspension (BOS) to facilitate laparoscopic pelvic side wall dissection: a new technique.

L. Chapman, P. Gambadauro, P. Papalampros, D. Polyzos, N. Papadopoulos, A. Magos

Minimally Invasive Therapy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

V-24

Laparoscopic debulking of an enlarged Obturator Fossa Lymph Node in a patient with recurrent endometrial cancer

M Peiretti, GB Melis, S Angioni, A Loddo, V Mais

Division of Gynecology, Obstetrics and Pathophysiology of Human Reproduction, Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

V-25

Trachelectomy- Daniel Dargent Operation

P George

CHU, Brussels, Belgium

TOPIC 5 : ENDOMETRIOSIS

V-26

Laparoscopic management of diaphragm endometriosis

H. Roman, M. Scotte, L. Marpeau

Rouen University Hospital, Rouen, France

V-27

Laparoscopic adhesiolysis of complete cul-de-sac obliteration and resection of a deep nodule after an incomplete resection of endometriosis using ultracision.

J.J. van Beek

VieCuri, Venlo, Netherlands

V-28

Techniques of exposure in laparoscopy.

V Thoma¹, N Waters², M Hummel¹, O Garbin¹, A Wattiez³

¹CMCO, Strasbourg, France, ²IRCAD-EITS, Strasbourg, France,

³Hopital de Hautepierre, Strasbourg, France

V-29**Ureteral endometriosis. Is re-implantation always necessary?**

G. Vittori, A. Lena, P. Giovannini, R. Delfini, PL. Russo, R. Zeloni, F.M. Camilli
Ospedale San Carlo - IDI, Rome, Italy

V-30**Ultrasonographic appearance versus NMR of under-diagnosed endometriosis: adenomyosis and deep endometriosis**

ME Coccia, F Rizzello, F Camilli, E Castellacci, D Ippolito
Dept Gynaecology Perinatology and Human Reproduction, University of Florence, Florence, Italy, Italy

V-31**The laparoscopic excision of a Recto-Vaginal endometriotic nodule extended to the right pelvic side wall.**

E.Ohana^{1,2}, A.Wattiez^{1,2}.
¹I.R.C.A.D/E.I.T.S, Strasbourg, France, ²Haute-pierre university hospital, Strasbourg, France.

TOPIC 6: MISCELLANEOUS**V-32****Gartner Duct Giant Cyst: abdominal approach of a rare case with no vaginal expression**

F Osório¹, P Ramoa², Z Sidiropoulou³, F Faustino³, A Setúbal³
¹Hospital Santa Maria, Lisboa, Portugal, ²Maternidade Julio Dinis, Porto, Portugal, ³Endoags, Lisboa, Portugal

V-33**The use of triple tourniquets to reduce intra-operative bleeding at laparoscopic myomectomy**

P. Papalampros, L. Chapman, P. Gambadauro, D. Polyzos, N. Papadopoulos, A. Magos
Minimally Invasive Therpy Unit & Endoscopy Training Centre, University Department of Obstetrics and Gynaecology, The Royal Free Hospital, London, United Kingdom

V-34**Ultrasound guided laparoscopically assisted Cryomyolysis (PLC)**

M Pansky¹, M Frank¹, D Schechter², B.D Cowan³, S.E Zimberg⁴
¹Asaf Harofe medical Center, Zerifin, Israel, ²Galil Medical Inc., Yokneam, Israel, ³University of Mississippi Medical Center, Jackson, MS, United States, ⁴Cleveland Clinic Florida, Weston, FL, United States

V-35**The safety and efficacy of direct trocar insertion with elevation of the rectus sheath instead of the skin for pneumoperitoneum**
MZ Gunenc¹, N Yesildaglar³, B Bingol¹, G Onalan², S Tabak², B Fokmen²

¹Istanbul Bilim University Metropolitan Florence Nightingale Hospital, Istanbul, Turkey, ²Ankara Research and Training Hospital, Ankara, Turkey, ³Zubeyda Hanim Dogumevi, Ankara, Turkey

V-36**Gasless optical entry at Palmer's Point in high risk patient**

S I Kayani, D J Rowlands
Arrowe Park Hospital, Wirral NHS Trust, Merseyside, United Kingdom

V-37**Triple adnexal teratoma**

F Osório¹, P Ramoa², F Faustino³, A Setúbal³
¹Hospital Santa Maria, Lisboa, Portugal, ²Maternidade Julio Dinis, Porto, Portugal, ³Endoags, Lisboa, Portugal

V-38**Gonadectomy performed for a 46XY primary amenorrheic female with a final diagnosis of gonadoblastoma**

Gurkan Uncu, Eser S. Ozyurek
Uludag University, Dept. of Obstetrics and Gynecology, Bursa, Turkey

POSTER PRESENTATIONS**TOPIC 1: ENDOMETRIOSIS****P001****An evaluation of outcomes and success of laparoscopic excision of Endometriosis.**

JSY Lo¹, S Pearson², A Pickersgill²
¹South Manchester University Hospital, Manchester, United Kingdom, ²Stepping Hill Hospital, Stockport, United Kingdom

P002**Angiogenic activity in peritoneal form of endometriosis for a long-term prognosis.**

A.S. Gasparov, V.A. Bourlev, E.D. Dubinskaya, O.E. Barabanova
Research Center For Obstetrics, Gynaecology and Perinatology of Russian Academy of Medical Sciences, Moscow, Russia

P003**Surgical treatment and angiogenic activity in women with peritoneal endometriosis and infertility.**

V.A. Bourlev, A.S. Gasparov, E.D. Dubinskaya, E.G. Hylkevich
Research Center For Obstetrics, Gynaecology and Perinatology of
Russian Academy Of Medical Sciences, Moscow, Russia

P004**Outcome after rectum or sigmoid resection: a review for gynaecologists**

ML Ret Davalos, C De Cicco, A D' Hoore, B De Decker, PR Koninckx
Gasthuisberg, Leuven, Belgium

P005**Outcome of conservative laparoscopic surgery in advanced endometriosis: recurrence and consequences for infertility management.**

D.P. van der Ham, J.J. van Beek
VieCuri medical Centre Northern Limburg, Venlo, Netherlands

P006**Pelvic adhesion formation after laparoscopic partial and total peritoneal excision for women with endometriosis**

A. E Oboh, A Trehan
¹Pontefract General Infirmary, Pontefract, United Kingdom,
²Dewsbury District Hospital, Dewsbury, United Kingdom

P007**Endometriosis in an Adolescent Population**

ME Coccia, F Rizzello, C Comparetto, D Ippolito, GL Bracco, V Bruni, GF Scarselli
Dept Gynaecology Perinatology and Human Reproduction, University of Florence, Florence, Italy, Italy

P008**The pains in endometriosis: related typologies of women**

ME Coccia, F Rizzello, GL Bracco, F Cammilli, L Ginicchini
Dept Gynaecology Perinatology and Human Reproduction, University of Florence, Florence, Italy, Italy

P009**Sentinel lymph node detection using vital dye is not a reliable technique in predicting lymphatic dissemination in patients with early endometrial cancer**

V Mais, M Peiretti, T Gargiulo, S Angioni, GB Melis
Division of Gynecology, Obstetrics and Pathophysiology of Human Reproduction, Department of Surgery, Maternal-Fetal Medicine, and Imaging, University of Cagliari, Cagliari, Italy

P010**Laparoscopic treatment of deep endometriosis**

J Del Pozo, T Gomez
Centro Médico Teknon, Barcelona, Spain

P011**Use of computerised pelvic mapping to identify markers for more extensive disease and difficulties of surgery.**

J T Wright, S Banerjee
Centre for Endometriosis and Pelvic Pain, St Peter's Hospital, Chertsey, United Kingdom

TOPIC 2: GYNAECOLOGICAL ONCOLOGY**P012****Choriocarcinoma of the uterus with metastasis to the cervix and urinary bladder: a case report.**

M Vahdat, E Sariri, M Ashouri, B Zamannejad, A Haghgoo
Iran university of medical sciences, tehran, Iran

P013**Sentinel Lymph Nodes and Radioguided Endoscopic Surgery in Endometrial Cancer Patients**

M. Kudela, R. Pilka, P. Dzvincuk, P. Koranda
University Hospital, Olomouc, Czech Republic

P014**Usefulness of Doppler index, CA125 and TPS in preoperative diagnosis of ovarian functional cysts**

M. Pawlak, D. Szpurek, R. Moszynski, M. Englert-Golon, P. Szczublewski, S. Sajdak
Division of Gynecological Surgery, Poznan University of Medical Sciences, Poznan, Poland

P015**Usefulness of artificial neural network in preoperative diagnosis of ovarian tumors malignancy and in qualifying for endoscopic Surgery**

D. Szpurek, R. Moszynski, M. Englert-Golon, M. Pawlak, S. Sajdak
Division of Gynecological Surgery, Poznan University of Medical Sciences, Poznan, Poland

P016**The usefulness of sonomorphological index in preoperative diagnosis of functional ovarian tumors**

R. Moszynski, D. Szpurek, M. Pawlak, M. Englert-Golon, P. Szczublewski, S. Sajdak
Division of Gynecological Surgery, Poznan University of Medical Sciences, Poznan, Poland

P017**Role of operative laparoscopy in the treatment of ovarian cancer**

B. Andrei
H Città di Parma, Parma, Italy

P018**Diagnostic hysteroscopy in women receiving Tamoxifen**

A. Lagadas, K. Giannakopoulos, D. Tsarpalis, N. Balakitsas, I. Burk, E. Toufexi
LAIKO Athens General Hospital-Department of Gynaecology, Athens, Greece

P019**The histological dilemma- metaplasia or cancer**

TK Madhuri, V Kaul, C MacDonald
The MidYorkshire Hospitals NHS Trust, Pontefract, United Kingdom

P020**Cervical Polyp or Uterine Adenosarcoma- A Case Report**

TK Madhuri, V Kaul, C MacDonald, G Hunter
The MidYorkshire Hospitals NHS Trust, Pontefract, United Kingdom

P021**Vulval Sarcomas with benign presentation - a case series**

TK Madhuri, V Kaul, G Hunter, C Kremer, C MacDonald
The MidYorkshire Hospitals NHS Trust, Pontefract, United Kingdom

P022**Vaginal radical trachelectomy: results of pregnancy and recurrence**

GPG Silveira, SA Pessini
Federal Faculty of Medical Sciences of Porto Alegre, Porto Alegre, Brazil

P023**Laparoscopic pelvic lymphadenectomy in patients with cervical cancer**

SA Pessini, GPG Silveira
Federal Faculty of Medical Sciences, Porto Alegre, Brazil

P024**Sentinel node detection with patent blue in patients with cervical cancer**

SA Pessini
Federal Faculty of Medical Sciences, Porto Alegre, Brazil

P025**Laparoscopic Approach Of Large Ovarian Cysts: Feasibility And Safety**

S Uccella, F Ghezzi, A Cromi, M Zanfrà, F Zefiro, R Laterza, PF Bolis
University of Insubria, Varese, Italy

P026**240 patients with endometrial cancer: a comparison between the laparoscopy and laparotomy**

A Santi¹, Th Gyr², G Berclaz¹, M Eberhard³, S Lanz¹, E Dreher¹, MD Mueller¹
¹Frauenklinik Univerisitätsspital, Berne, Switzerland, ²Ospedale Regionale, Lugano, Switzerland, ³Kantonsspital, Schaffhausen, Switzerland

P027**Laparoscopic approach and its role in staging of early ovarian cancer: a case report**

K. Papanikolaou, S. Srivastava, J. Beynon
St Richard's Hospital, Chichester, United Kingdom

TOPIC 3: HYSTERECTOMY

P028

Hysterectomy short-term outcomes in patients with similar indications

A.S. Gasparov, I.A. Babicheva, E.D. Dubinskaya,
E.R. Dovletchanova, E.G. Hilkevich

Research Center For Obstetrics, Gynaecology and Perinatology Of
Russian Academy of Medical Sciences, Moscow, Russia

P029

The rational choice of surgical approach for hysterectomy

E.K. Ailamazyan, V.F. Bezhenar, G.A. Savitsky, D.A. Niauri,
E.N. Popov, A.A. Tsyurdeyeva, R.D. Ivanova, L.K. Tsuladze
Russian Academy of Medical Sciences D.O. Ott Scientific Research
Institute of Obstetrics and Gynecology, St. Petersburg, Russia

P030

Cervical bleeding after abdominal and laparoscopic subtotal hysterectomies

I.A. Babicheva, E.D. Dubinskaya, A.S. Gasparov,
E.R. Dovletchanova, A.E. Ter-Ovakimyan

Research Center for Obstetrics, Gynecology and Perinatology of
Russian Academy of medical Sciences, Moscow, Russia

P031

Surgical routes of the cervical stump removal.

I.A. Babicheva, A.S. Gasparov, E.D. Dubinskaya, O.E. Barabanova
Research Center for Obstetrics, Gynecology and Perinatology of
Russian Academy of Medical Sciences, Moscow, Russia

P032

The impact of vaginal surgery training on the vaginal vs. abdominal hysterectomy ratio

A Malinowski, J Cieslak, G Maciolek-Blewniewska, T Augustyniak
Department of Surgical and Endoscopic Gynaecology Polish
Mother's Memorial Hospital-Research Institute, Lodz, Poland

P033

Operative outcomes following total laparoscopic hysterectomy: a case series

J English, M Norbrook, N Kenney
Worthing Hospital, Worthing, West Sussex, United Kingdom

TOPIC 4: HYSTEROSCOPY

P034

The Role Of Hysteroscopy In Infertile Patients. A Clinical Study

R Socolov, S Butureanu, D Socolov, C Flaiser
Department of Obstetrics and Gynecology, Iasi University of
Medicine, Iasi, Romania

P035

Myomectomy during pregnancy - a case report

L. Santos¹, L. Vicente², M. Nunes¹, I. Nery¹, M. Caetano¹,

P040

Patients attending ambulatory hysteroscopy: reason related to hormonal stage

JE Arjona, I Montilla, M Feijoo, MA Carroza, M Miño, J Córdón
Reina Sofía University Hospital, Córdoba, Spain

P041**Improvement of reproductive outcome and menstrual pattern after hysteroscopic polypectomy in previous Infertile women with Symptomatic Endometrial Polyps.**

I Stamatellos, P. Stamatopoulos, J. Bontis
 First Academic Dept of Obstetrics and Gynaecology, Papageorgiou General Hospital, Thessaloniki-54606, Greece

P042**Three years experience with Versapoint system**

F. Fernandes
 Espírito Santo Hospital, Évora, Portugal

P043**The efficiency of hysteroscopy in diagnostics of endometrial and miometrial pathology**

G. Mecejus, E. Bauzyte
 Vilnius University Clinic of Obstetrics and Gynecology, Vilnius, Lithuania

P044**Hysteroscopy as an advantage in the treatment of Uterine Bleeding**

D Hodžic, V. Cacinovic-Matic
 Našice County General Hospital, Našice, Croatia

P045**Pyometra treated by Cervico-Isthmic resection**

R. Garnier
 Polyclinique St.Andre, REIMS, France

P046**Uterine Sarcoidosis :An Infrequent Lesion Discovered By An Endometrial Resection**

R. Garnier
 Polyclinique St.André, REIMS, France

P047**Hysteroscopic surgery: a safe and efficient procedure. A review of 330 personal cases**

R. Garnier
 Polyclinique St. André, REIMS, France

P048**The role of hysteroscopy after failed typical diagnostic curettage**

G Alexandris, S Dritsas, K Liargovas, C Adwera, D Georgiou, P Skolarikos
 Helena Venizelou Hospital, Athens, Greece

P049**The role of hysteroscopy in treating patients with uterine myomas Difficulties in hysteroscopic myomectomy**

V Bagiokos, E Tsoukalos, G Alexandris, T Avgoustidis, G Patrikios, P Skolarikos
 Helena Venizelou Hospital, Athens, Greece

P050**Endoscopic diagnosis of Mullerian Anomalities: functional endometrium in no communicating rudimentary horn**

M. Gorostidi, B. Rivero, I. Aizpitarte
 Hospital Donostia, San Sebastian, Spain

P051**A method for safe hysteroscopic synechiolysis operations in patients with Asherman's syndrome**

T Yoshimoto-Kakoi, S Hayasaka, H Suzuki-Kakisaka, Y Terada, T Murakami, N Yaegashi, K Okamura
 Tohoku University of Medicine, Sendai, Miyagi, Japan

P052**Placental polyp: an unusual hysteroscopic finding**

A Lebre, S Carvalho, G Madureira, U Ramos, P Ramôa, M Leal
 Maternidade Júlio Dinis, Porto, Portugal

P053**Uterine septus: fertility and obstetrical outcome after hysteroscopic section of uterine septus**

S. Carvalho, A. Lebre, P. Ramoa, M. Carinhas, M. Leal
 Maternidade de Julio Dinis, Oporto, Portugal

P054**Hysteroscopic Myomectomy as a method of choice: long term results in 150 patients**

G Dimitrov, I Aluloski, V Trajkovski
 Clinic for gynecology and obstetrics, Skopje, Macedonia, FYR

P055

Long-term follow up of hysteroscopic myomectomies

M. Huarte¹, A. Gorostiaga², I. Villegas², T. Campelo¹, I. Brouard¹, D. Andía¹

¹Hospital de Basurto, Bilbao (Basque Country), Spain, ²Hospital San Francisco Javier, Bilbao (Basque Country), Spain

P056

Why is it recommendable to resect all endometrial polyps?

I. Villegas, A. Gorostiaga

Hospital San Francisco Javier, Bilbao, Bizkaia, Spain

P057

Submucous myomas: when to purpose outpatient hysteroscopic myomectomy

L.A. Ramos, S. Coutinho, N. Assunção

D. Estefânia Hospital, Lisbon, Portugal

Objective: The aim was to identify selection criteria of submucous myomas that can be treated by hysteroscopy in outpatient setting.

TOPIC 5: PERINATAL MEDICINE, FETOSCOPY AND INTRAUTERINE FETAL SURGERY

P058

Laparoscopic surgery for ovarian tumors during 2nd trimester pregnancy in comparison with laparotomy

J Saito, A Taniuchi, C Tsuda, M Ino, S Igarashi, H Horinaga, T Hosaka, K Saito, T Shirota, B Ishizuka

St Marianna University School of Medicine, Kawasaki Kanagawa, Japan

P059

More cases of increased fetal nuchal translucency and their embryoscopic imaging.

M Paschopoulos¹, T Vrekoussis¹, F Grozou¹, EN Meridis², LG Lavasidis¹, NP Polyzos¹, N Dalkalitsis¹, E Paraskevaidis¹

¹Dept of OB/GYN, Medical School, University of Ioannina, Ioannina, Greece, ²Hammersmith Hospital, Imperial College, London, United Kingdom

TOPIC 6: REPRODUCTIVE SURGERY

P060

Assisted reproduction treatment results after pretreatment operations on account of different gynecological pathology

O Berestovoy, V Zinchenko

Isida hospital, Kiev, Kiev, Ukraine

P061

Polygynax after hysteroscopy before assisted reproduction treatment.

O Berestovoy

Isida hospital, Kiev, Kiev, Ukraine

P062

Long-term prognosis in women with ectopic pregnancy in the only tube.

A.S. Gasparov, E.D. Dubinskaya, O.E. Barabanova, I.A. Babicheva, D.I. Kolesnikov, A.A. Torgomyan

Research Center For Obstetrics, Gynaecology and perinatology of Russian Academy of Medical Sciences, Moscow, Russia

P063

Laparoscopic treatment of 'Sub-hepatic 'Ectopic pregnancy in a fallopian tube of a non communicating rudimentary uterine Horn

R. Faraj¹, G. ELBishry², V. Tselos²

¹Durham University Hospital, Durham, United Kingdom, ²Blackpool Victoria Hospital, Blackpool, United Kingdom

P064

Surgical management of Ectopic Pregnancy. Why so few laparoscopies? Experience from a Large District Hospital. Northwest UK

C Panayotidis, K Abdo

Department of obstetrics and gynecology, Women's health directorate, Royal Preston Hospital, Lancashire University Hospital NHS trust, Preston, United Kingdom

P065

A simple and effective laparoscopic technique for reversal of sterilisation in women

S. Weyers, P. De Sutter

Womens Clinic, Ghent University Hospital, Ghent, Belgium

P066

Second-look after laparoscopic myomectomy in infertile patients: is it useful? Our preliminary data.

FM Montella, AP Porcelli, AD Danieli, GV Ventresca

S. Andrea Hospital, Vercelli, Italy

P067**Laparoscopic and hysteroscopic myomectomy, clinical outcome of 145 cases**

A G Ujvari¹, A Vereczkey¹, Zs Szeberenyi¹, I Fulop¹, S Savay¹, T Szakonyi¹, O Kabdebo²

¹Dept. of Infertility, Nyiro Gyula Hospital, Budapest, Hungary,
